

## [Note]

Note There should be enough material for a New England book if it is necessary to have one at this time. The stuff compares favorably with These Our Lives and Idaho Lore, in fact, a lot of it is better than many of the [pieces?] used in the above two books- we have good copy for Swedes French-Canadian Yankees Italians Irish Welsh (not the best copy) [?]broken up with illustrations or page decorations, the volume would probably or well received by critics and the public (we hope)- JCR P.S. I say, keep the sentimental stuff in - if it is good - the public wants it. JCR.
